Who we are

Life Insurance Direct Australia Pty Ltd (“Life Insurance Direct”) is a highly awarded web and phone based life insurance comparator. Originally trading as xLife, we have, since 2006, helped thousands of clients understand the insurance options available to them and ensured they have access to, and visibility of, those products that will help them to address their needs.

Life Insurance Direct is neither owned nor controlled by any bank, insurer or fund manager. The consultants with whom you will deal with are employees or contractors of Life Insurance Direct. We are confident that they have the skills and experience you need and we are responsible for the information and general advice they provide. If you have anything to say about their advice, or the service they provided to you, we encourage you to let us know. We value your feedback.

What we do

Life Insurance Direct is an advice business that fundamentally believes that all Australians need, and would significantly benefit from, the confidence of knowing that their wealth and lifestyle is adequately protected. Risk Insurance provides people with the critical first step for wealth creation but, more importantly, provides them with the financial confidence they need to pursue their dreams and grow and secure their wealth.

Life Insurance Direct can provide you with the factual information and general advice you need to make your own decisions about a range of investments, personal, corporate and self-managed superannuation, personal risk insurances, key person insurances and shares.

Life Insurance Direct doesn’t cover every product available in Australia. In fact, we limit our advice to the products, services and Insurers listed on our Approved Product List.

We believe that our job is to empower and equip consumers to make their own financial decisions and we try to provide you with the information and support you need to make informed decisions about your insurance and superannuation. Generally we will provide you with information that is factual or general in nature. Because of this, you need to make your own assessment of the information we provide and consider your own needs and circumstances. When we provide you with general information we will also provide you with a document titled “General Advice Record.”

If, at any time, you feel that you need additional assistance, or personal advice about your specific needs and circumstances, please speak to us and we’ll refer you to someone that can help you.

We are not registered tax (financial) advisers and we don’t provide tax (financial) advice. Although some of the documents we provide – such as Product Disclosure Statements or Education material – may address tax or how products or benefits are taxed, we are not authorised to provide tax advice and we are not trained to do so. **If you need taxation advice we’re happy to refer you to an accountant or tax agent that can assist you.**

We can act on your instructions

After you engage us, we will act on your instructions whether you provide them by telephone, email, fax or other means of communications. We will confirm and document instructions to place, amend or cancel investments or insurance in an Execution/Instruction document. As a reflection of our commitment to continuous improvement and consumer protection, your calls to us will be recorded and retained for training and compliance purposes. Should you prefer us to communicate with you via email please understand that you are responsible for monitoring the email account nominated for this purpose. We'll treat any communication to us from this address as instructions from you and we'll continue to use this account until you tell us otherwise.

Important documents you can expect to receive

When we provide you with general information and you proceed with an application we will provide you with a document titled "General Advice Record". When you have instructed us to amend your policy we will provide you with a document titled an Execution Only Record.

The **Product Disclosure Statement (PDS)** contains specific and important information about the financial product. It is very important for you to read and understand the **PDS** before you can make any decision about the financial product.
